PROFILE

A seasoned Technical Project Manager with over 14 years of experience, including 3+ years in project management and 11 years in software development and implementation. Proven ability to manage complex technical projects, establish and lead PMO functions, and deliver high-impact software solutions. Strong background in ASP.Net, .NET Framework, SQL Server, and Agile methodologies. Demonstrated leadership in guiding cross-functional teams and delivering results that drive operational excellence. Currently pursuing PMP® certification to deepen my program-level leadership, planning, and global project execution capabilities.
